The minister also stated the following on learner support programmes during COVID-19 pandemic:

In light of the disruptions to schooling brought on us by COVID and the move to the Risk Adjusted Level 4, the Sector has with immediate effect activated the remote learner support programmes.

The WOZA Matrics 2021 Catch-Up Programme and the Tswelopele Campaigns are initiatives established by the DBE, in collaboration with the National Education Collaboration Trust (NECT).

These are national supplementary remote learning campaigns, developed to support 2021 matric learners and learners in the General Education & Training Band (GET) from Grades R to 9; with supplementary support content, that will enable learners to catch-up on learning losses; and enable them to enhance, acquire and develop crucial knowledge, skills, attitudes and values during the academic year.

The campaigns provide digital and non-digital learning resources in partnership with a range of content providers through the DBE-TV on Open-View Channel 122, SABC 1 and DSTV Catch-Up, YouTube channels, as well as digital and mobile chat platforms. These platforms were put in place to minimise the negative impact of COVID-19 on learning, and to provide further learning opportunities in the context of the restrictions that are currently in place. A detailed list of the resources is available on the DBE website.

Keep safe and may God bless us all in our preparations for the final matric exams.

Regards

JH van Niekerk
